samuel2143ip@gmail.com ◇ [LinkedIn](#) ◇ [Github](#)

SKILLS

Programming	Core Java
Frameworks	Spring boot, Netty, Apache Ofbiz
Database	PostgreSQL, TimescaleDB, Redis
Tools	Apache kafka, Firebase, Git, Docker, Postman, VS code
OS	Linux, Windows

WORK EXPERIENCE

Engineer – Product & Technology

Jun 2024 – Present

Atsuya Technologies, Chennai

- Developed modular REST APIs using Spring Boot, consistently delivering features **20–30% faster** than peer average across multiple sprints.
- Refactored existing API logic to reduce payload size and improve query efficiency, contributing to a **35% improvement in average response time**.
- Built a custom WebSocket server using Netty for real-time streaming of IoT events; enabled dashboard updates with **under 500ms latency**.
- Reduced **database overutilization** by optimizing queries and indexing, improving performance and **lowering infrastructure costs**.

PROJECTS

Real-Time WebSocket Event System

Technologies : Netty, WebSockets, Java, Kafka, TimescaleDB

- Built a low-latency WebSocket server using Netty to stream live event data to frontend dashboards.
- Defined a consistent message schema for filters, counts, metadata, and event updates.
- Ensured resilience by implementing reconnection logic and message retries.

Certificate-Based JWT Auth System

Technologies : Java, Ed25519, Redis, JWT

- Designed a custom certificate format (non-X.509) using Ed25519 for client identification and signing.
- Implemented a secure API to validate client certs, verify signatures, and issue JWTs.
- Used Redis to apply fine-grained rate limits based on cert identity and endpoint access.

ADDITIONAL

- Solved 150+ problems on [LeetCode](#).

EDUCATION

B.E. Computer Science Engineering, Peri Institute of Technology

Sep 2020 – Jun 2024

HSC, Montfort Hr Sec School

Apr 2020

SSLC, Montfort Hr Sec School

Apr 2018
